DETAILED ACTION

Allowance

1. **Claim(s) 1-17** are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding **claim(s) 1, 5-8 and 10**, the prior art of record Curry discloses a system for providing telephony communication through a packet switch data network but fails to disclose or suggest an IVR unit configured to select an application program to provide to a port prior to answering an incoming call at that particular port and the application program is selected in accordance with an out-of band call destination information received by the IVR unit. It is not obvious to add the application program in the packet switch network of Curry because the IVR of Curry has a general application program for all the call and not a special application based on the destination information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
